CLUES

1 Water turning into vapour as it warms

2 Vapour cooling back into tiny drops

3 Rain, snow or hail falling from clouds

4 A mass of tiny water drops in the sky

5 Water falling in drops from the sky

6 Water in its gas form

7 Fresh water flowing towards the sea

8 The largest store of water on Earth

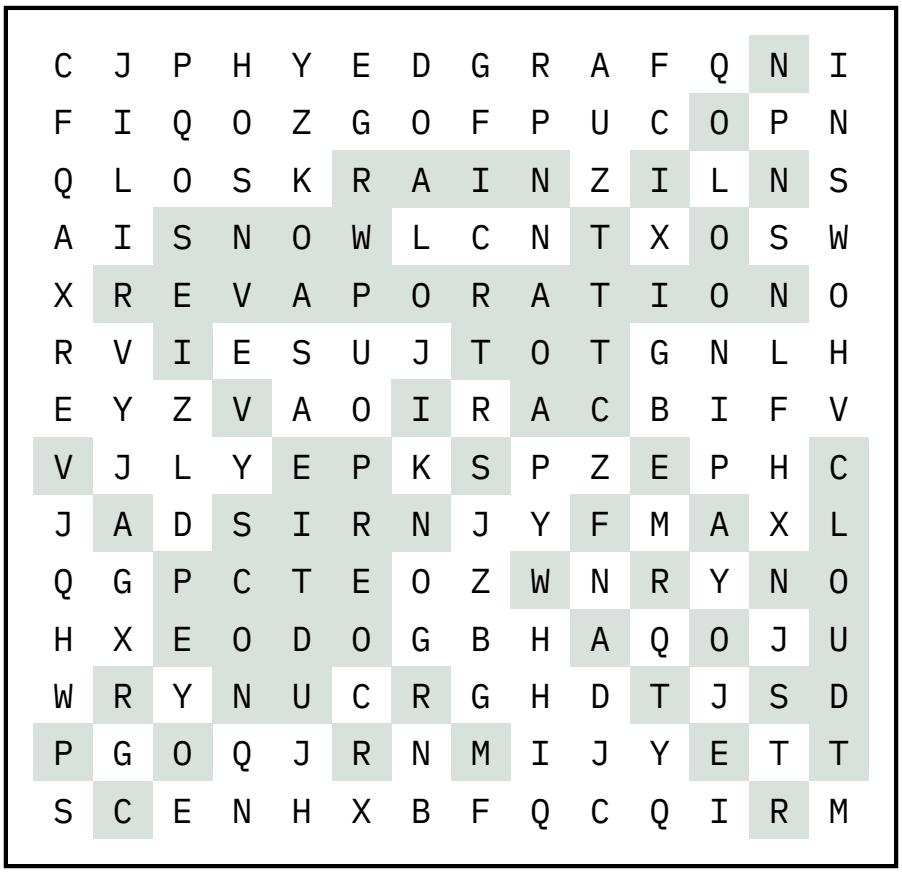

9 Frozen water falling as soft white flakes

10 Ice crystals forming on a cold surface

11 Rough weather with wind and heavy rain

12 The liquid that fills lakes, rivers and seas

Answer key

1 EVAPORATION

2 CONDENSATION

3 PRECIPITATION

4 CLOUD

5 RAIN

6 VAPOUR

7 RIVER

8 OCEAN

9 SNOW

10 FROST

11 STORM

12 WATER
